SEEDERS • AERATORS • SPREADERS • SPRAYERS • MIXERS • SLASHERS • CULTIVATORS • WRAPPERS

The working width of spread is 18-20 metres via two large stainless-steel discs which are driven by a heavy duty, PTO gearbox (540 RPM).

The rate of spread can be easily calibrated via two mechanical levers on the front of the machine and can be hydraulically shut off while you are in cab via your tractor.

Other standard features include:

Removable internal hopper screens, Mud guard protection, Wheels for easy manoeuvrability as well as easily accessible spare parts.

Model	Working Width	Total Width	Total Length	No. Of Spinners	Fertiliser Capacity	Machine Weight	Required Power
GS2 1400	18-20m	1800mm	1390mm	2	1400kg	275kg	65-110HP

An optional one tonne bag lifter creates the perfect combo for the Agromaster spreader, making your entire spreading needs a simple, one person operation. An optional hopper cover is also available for purchase.

Heavy duty gearbox system powered by tractors PTO shaft
