Our Purpose

Our purpose means different things to different people. Whether it's protecting animals, livelihoods, wellbeing, families, or the environment, **we empower people to protect what matters most to them.**

Since 1938, we've been helping farmers to harness the power to farm by delivering world-leading animal management solutions, that enable our customers to operate responsibly, productively, and profitably.

Our Product Solutions

We lead the market in electric fencing, weighing and electronic identification (EID), data collection, and liquid monitoring systems.

Before we entered the animal management business, we were farmers. It was a typical farmer's approach to solving farm problems that helped us lead the world into the electric fencing age, and we carry that mindset across our entire range of products solutions.

Keep an eye out for these products:

Our commitment to innovation is supported by a strong research and development program.

Over 10% of our employees are dedicated to the development of new and improved products. We are inspired by providing new solutions for old and new challenges, making life on the farm easier for your customers.

i Series Sat Gateway

Manage, monitor and control your energizer using your mobile phone protect your farm assets.

Connectivity is no longer a problem. Keep a watchful eye on your fence from anywhere. View information about your energizer performance, be alerted of fence faults from Fence Monitors, adjust your output voltage, and turn your fence on and off - all in the palm of your hand.

Weigh Ready Crush

The Weigh Ready Crush, developed by Norton and Gallagher, is designed to seamlessly integrate with Gallagher's weigh systems. It simplifies livestock management by allowing farmers to weigh, scan EID tags, and treat cattle in one location.

This ready-to-use solution enhances data collection accuracy and provides a safer, more efficient livestock handling experience, saving time and effort for farmers.

Liquid monitoring systems

Water – and other on-farm liquid assets like fuel and fertiliser – are finite and precious resources.

While it's crucial to monitor your liquid assets, spending your time constantly checking your tank levels isn't the most efficient approach. We're here to make that job a whole lot easier and more efficient so you can get more out of your day and have peace of mind that you have enough water on your farm.

Goodnature Rat & Mouse Traps

When rats or mice come calling, there's never just one. The Goodnature® product range has everything you need to get on top of your rodent problem, with a rat and mouse trap that's automatic, non-toxic and delivers a quick and humane kill.

Auto Weigher

The Gallagher Auto Weigher streamlines livestock weighing with its fully automated system, allowing farmers to accurately weigh animals without manual input. Animal data is captured, analyzed, and converted into full body weight, which is securely sent to the Cloud. Farmers can easily access this data on their mobile or desktop, anytime and anywhere, ensuring informed decision-making and efficient livestock management.

Animal Fencing

When chosen and installed correctly, it will control animals over long distances. Gallagher have a full range of mains, battery and solar powered Energizers to suit the smallest fence right up to the largest and most remote fence - all backed by a 3 year warranty.

Animal Fencing

Permanent Fencing

A low maintenance solution that lasts a lifetime

Effective land, pasture, and animal management is dependent on a reliable fencing solution that is respected by the animals you are managing.

Can be used for livestock inclusion, feral animal exclusion, and biodiversity conservation purposes. We partner with Landcare Australia to support landowners and groups to care for the land through permanent fencing projects. Through this partnership, we have committed over \$900k in conservation fencing grants, Landcare conference support, and other activities

Portable Fencing

Versatile, effective and convenient animal control.

Gallagher's portable fencing solutions are designed to be easily transported, installed, and removed for reliable short-term fencing, anywhere on your land. Control animal location and optimise your pasture growth with managed grazing allocations that can be tailored to your land, animals and pastures.

Land & Water Care

Our liquid monitoring systems and rodent traps (Good Nature) keep working around the clock, freeing your time and energy to focus on what matters most.

Liquid monitoring systems

Water – and other on-farm liquid assets like fuel and fertiliser - are finite and precious resources. While it's crucial to monitor your liquid assets, spending your time constantly checking your tank levels isn't the most efficient approach. We're here to make that job a whole lot easier and more efficient so you can get more out of your day and have peace of mind knowing that you have optimal water levels operating on your farm.

Goodnature Rat & Mouse Traps

When rats or mice come calling, there's never just one. The Goodnature® product range has everything you need to get on top of your rodent problem, with a rat and mouse trap that's automatic, non-toxic and delivers a quick and humane kill.

Animal Performance & Traceability

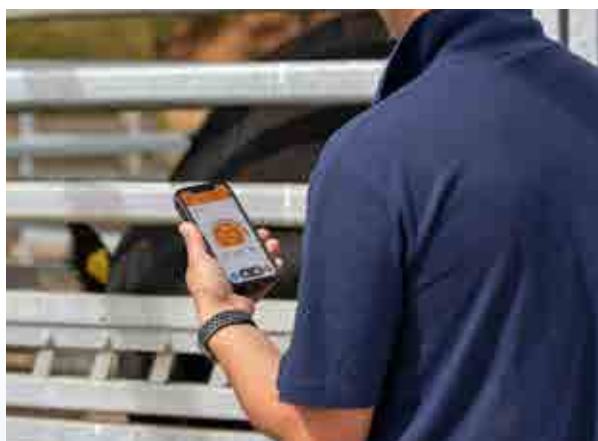

Gallagher Weigh Scales and Data Recorders range from an entry level automatic weighing model through to the most advanced weighing and data collection system available.

Animal Performance and Traceability

A better view of your animals.

Animal Performance and Traceability solutions make collecting data and handling animals **safe, simple, and efficient**, leading to more **informed decision-making and higher on-farm productivity**.

A weighing and electronic identification (EID) system saves both time and money by automating animal management and handling tasks. It allows farmers to manage their business more profitably.

Data at your fingertips

The brilliance of the Gallagher Animal Performance & Traceability systems lies in what you can achieve with the data you gather.

Experience a seamless journey from in-yard data collection to data review and analysis using your phone or your computer, thanks to our powerful and intuitive cloud-based software. Unlock valuable insights about your individual animals and take complete control of your livestock performance so you can make better, more informed farm management decisions.

Livestock Handling

Norton is Australia's leading manufacturer and supplier of farm gates, gate hardware, livestock handling equipment and associated rural products into the animal farming sector since 1989.

Gallagher is excited to present integrated livestock handling solutions that are reliable, fit-for-purpose, and help Australian farmers maximise productivity and run more efficient and sustainable farming operations.

Norton Livestock Handling equipment is designed to integrate perfectly with Gallagher Animal Performance & Traceability solutions. This creates a safe and easy data collection point for farmers looking to introduce a premium animal management experience on their farm.

We've made our Cattle Crushes Weigh-Ready, creating a holistic solution that enables farmers to scan EID tags, collect and capture data on their livestock and weigh and treat cattle all in one central location.

For more information please call us, or visit am.gallagher.com/en-AU or nortonlhs.com.au

STANDARD WELD MESH 25nb

MATERIALS USED

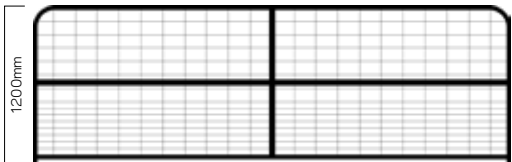

Steel Frame and Struts: 25nb (33.7mm O.D.)
Galvanised Pipe.

Graduated Weld Mesh: 175mm x 100mm (top) to
50mm (bottom) x 5mm Galvanised.

IDEAL FOR

Cattle, sheep and general purpose.

CROSS BAR WELD MESH 32nb

MATERIALS USED

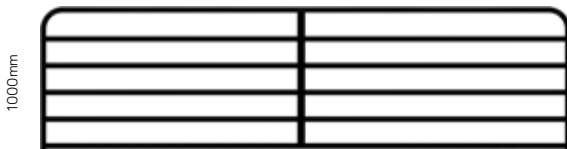

Steel Frame, Struts and Bar: 32nb (42.4mm O.D.)
Galvanised Pipe.

Graduated Weld Mesh: 165mm x 100mm (top) to
50mm (bottom) x 5mm Galvanised

IDEAL FOR

Cattle including bulls and general purpose.
Also used in Cattle Yards.

SHEEP GATE (6 BAR) BAR TYPE 25nb

MATERIALS USED

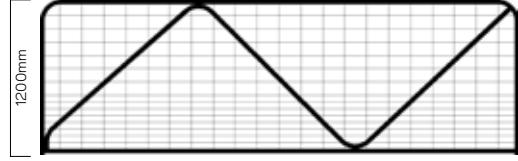

Steel Frame and Bars: 25nb (33.7mm O.D.)
Galvanised Pipe.

Strap: 50mm x 5mm Duragal Flat.

IDEAL FOR

Sheep and pigs.

STANDARD V STAY & N STAY WELD MESH 25nb

MATERIALS USED

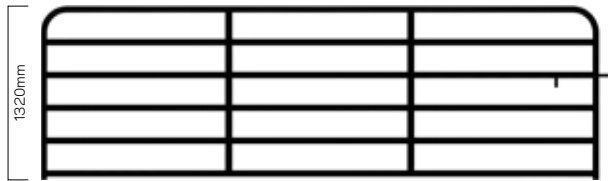

Steel Frame and Stay: 25nb (33.7mm O.D.)
Galvanised Pipe.

Graduated Weld Mesh: 165mm x 100mm (top) to
50mm (bottom) x 5mm Galvanised.

IDEAL FOR

Cattle, sheep and general purpose.
Heavier duty than the Standard Weld Mesh Gate.

CATTLE YARD GATE (6 BAR) BAR TYPE 32nb

MATERIALS USED

Steel Frame and Bars: 32nb (42.4mm O.D.)
Galvanised Pipe.

Strap: 65mm x 5mm Duragal Flat. All gates come with
Slide Bolt (standard) OR a Chain Catch (by request).
Supplied on RHS unless otherwise specified.
Strap and Slide Bolt are on the same side of the gate.

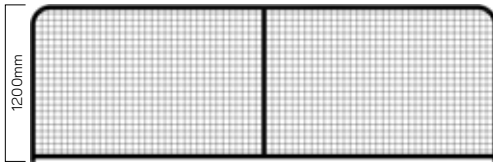

IDEAL FOR

Cattle yards including bulls.

Norton manufacture all types of gates at
Hastings, Victoria. We can customise sizes
to suit your needs. Look at more options at
www.nortonlhs.com.au or call 1300 NORTON
for further info.

Norton Gates

50 x 50mm WELD MESH 25nb

MATERIALS USED

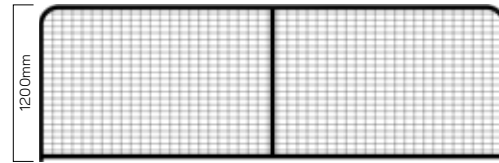

Steel Frame and Struts: 25nb (33.7mm O.D.) Galvanised Pipe.

Weld Mesh: 50mm x 50mm x 4mm Galvanised.

IDEAL FOR

Horses, horse day yards, poultry pens and house yards.

75 x 50mm WELD MESH 25nb

MATERIALS USED

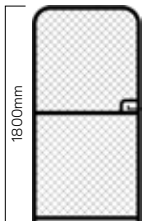

Steel Frame and Struts: 25nb (33.7mm O.D.) Galvanised Pipe.

Weld Mesh: 75mm x 50mm x 4mm Galvanised.

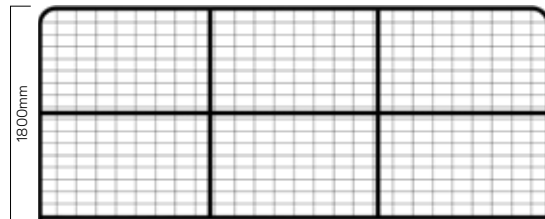

IDEAL FOR

Horses, horse day yards and house yards.

ACCESS GATE

WELD MESH (1800mm HIGH) 25nb

MATERIALS USED

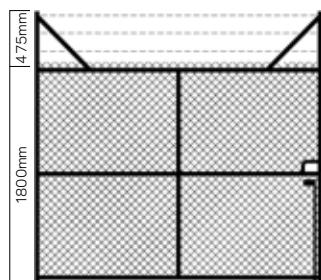

Steel Frame, Struts and Bar: 25nb (33.7mm O.D.) Galvanised Pipe.

Weld Mesh: 165mm x 100mm x 5mm Galvanised.

IDEAL FOR

Deer, emu, ostrich, poultry and dog pens.

CHAIN MESH + 3 BARB WIRES (25nb)

MATERIALS USED

Steel Frame, Struts and Bar: 25nb (33.7mm O.D.) Galvanised Pipe.

Chain Mesh: 50mm x 2.5mm Galvanised.

Barb Wires: 3 Rows x 1.57mm. All gates are supplied RHS unless otherwise specified, and include a Collar for hinging

IDEAL FOR

Factory, industrial and car yards.

CHAIN MESH (1200mm HIGH) 25nb

MATERIALS USED

Steel Frame and Struts: 25nb (33.7mm O.D.) Galvanised Pipe.

Chain Mesh: 50mm x 2.5mm Galvanised. All Access Gates are supplied as RHS unless otherwise specified.

IDEAL FOR

Entrance gate, dog pens, poultry pens and house yards.

Warranty & Repair Process

Contact details

65 Scanlon Drive
Epping Victoria 3076
Email techsupport.au@am.gallagher.com
Phone 1800 425 524

Our simple and effective repair return process is outlined below and is designed to ensure product repairs are conducted as efficiently as possible.

Procedure for returning a repair

Please fill out the Service Repair Form with all known details and include a copy with the return. Forms are available from our website.

Fill out a separate form for each item you are sending. Please enclose a copy of your customer's proof of purchase for warranty repairs.

Contact your Customer Service Representative on 1800 425 524 to book in parcel collection. Your Customer Service Representative will provide you with address labels (connote) and a booking reference number.

Ensure the item you are returning is packed safely, with sufficient packaging to minimise the risk of damage in transit.

Please ensure address labels are clearly affixed to parcel.

Gallagher Australia Pty Ltd
65 Scanlon Drive
Epping VIC 3076

Within 48 hours of our team receiving your repair package, we will evaluate the item and then contact you to discuss options for repairs, trade up or disposal. Warranty repairs will be processed and returned ASAP.

Terms of Trade

Strictly 30 days from date of statement or at our option, Cash with Order or C.O.D.

Prices

All prices exclude the cost of freight unless otherwise specified. Prices are subject to change without notice

Returns

No goods accepted for credit after 21 days of date of despatch unless prior notification given.

Freight

Orders exceeding \$850 are FIS excluding sheep and cattle handlers, platforms and crates.

Freight is chargeable on orders less than \$850 and on sheep and cattle handlers, platforms and crates. Orders less than \$850 or for handlers, platforms and platforms are FOB Epping Melbourne VIC with preferred carrier to be nominated.

Title

Title of the goods remain with Gallagher Australia Pty Ltd (the Company) and does not pass to the purchaser until paid for in full, and in the event that a debtor of the Company enters into Receivership, Liquidation or a Scheme of Arrangement with their creditors, then all goods purchased from the Company and still in their stock at that time, remains the property of Gallagher Australia Pty Ltd until all invoices have been paid.

Energizer repairs

Repairs sent via post are at the senders care. For high value products it is strongly recommended to ship via courier. Book in a collection with your Customer Service Representative on 1800 425 524. Please note there is a testing and handling fee on all repairs unless otherwise stated.
